

Our Commitment to Quality Care

Lead Care With Light™

Addressing America's behavioral healthcare crisis has never been more urgent. Acadia Healthcare focuses entirely on improving the lives of all those in need of care.

From military personnel to adolescents, from coast to coast, more patients achieve more success through our specialized, end-to-end programs than any other behavioral health provider in the country.

Our purpose to Lead Care With Light™ embodies our tireless advancement of the behavioral health and well-being of patients, families, providers, partners, and communities.

A recognized leader in quality, care, and community

Setting the Standard for High-Quality Outcomes

A commitment to clinical excellence and improved outcomes nationwide

- ✓ 21 Joint Venture partnerships with premiere health systems
- ✓ \$100M technology investment to enable quality care
- ✓ 3–5X better performance than CMS national benchmarks for use of restraints and seclusions
- ✓ 99% scores across all 13 dimensions of quality measured by Commission on Accreditation of Rehabilitation Facilities
- ✓ 80% of Comprehensive Treatment Center patients opioid free in 6 months (vs 45% national average)

An unwavering commitment to innovation and quality

“Our focus on implementing new strategies, protocols, and practices, along with investments in new technologies and training programs, is raising the bar for all of Acadia’s facilities and the behavioral healthcare industry as a whole.”

— Navdeep Kang, Psy.D., Chief Quality Officer
